Positive and Constructive

Next Steps

From the Chair:

In public session (obviously!) ask each board member to speak to the message recieved by the voting down of the bond, what the board needs to do to expand and complete their inquiry of the facilities issue.

Time line

From the chair's point of view, speak to the determination to take the needed time and use it constructively.

Identify ~~and~~ both practical and conceptual steps, both short term (to ~~[illegible]~~ remedy hardships, ~~[illegible]~~ for example in the next few weeks fix bathroom in fire house) And set time line for the year. Investigate office trailer for Andy, and possibly a leased portable classroom for police.

- Can anything be done to repair leaky roof at highway garage?
- Can we use volunteer tradesmen?
- Can we use the grange building as a temporary break-room, meeting room, etc?
- Are there any other community entities with available space and need of revenue who can be enlisted here? Basement of Episcopal church? Lyman Pell? Norwich School? Norwich Square? Other? Lewiston? In other words, can we ~~help~~ work together with any other key town entity or business to strengthen both, even in the short term?
- ~~Set timeline~~ Direct town manager to accomplish agreed upon repairs, relocation, whatever. Direct town manager. Review maintenance schedule for past 1 year, 5 years 10 years. Give history of maintenance?
