

Norwich Conservation Commission draft minutes of 16 December 2014

Present: Craig Layne, David Hubbard, David Hobson, Martha Graber, Peter Silberfarb, Jennifer Gillrich

Absent: Bill Pierce, Norm Miller, a ninth member

Commencement 7:05 pm

M. Graber reported that nature photography is being sought for the display board in the post office. P. Silberfarb will contact some potential artists.

C. Layne reported the Nature Area Committee is in the process of finding help for invasive plants control and could likely use Commission input.

D. Hubbard reported the Trails Committee will continue work on Gile Mountain trails in 2105. An alternative to the current format and marketing of the trails map was examined and discussed. An example from the Hartland trails was viewed and found to be a nice map. It will be discussed with the Trails Committee.

The Commission does not see any reason to add an extra layer of plastic to the garbage going into the transfer station. P. Silberfarb moved that since the transfer station procedures already comply with the new state law the town should not compel residents to add additional plastic into the waste stream, seconded by D. Hubbard, approved unanimously.

Next NCC meeting is Tuesday, 20 January 2015, 7 pm

Adjournment 8:15 pm

Minutes submitted by C. Layne, secretary
