HI Mary, Neil, Linda, Steve, Dan, & Chris,

Both Penny & I are v. disappointed that the Selectboard would vote to put a bond before the voters given that one for a similar amount was rejected just 5 weeks ago. To have an emergency SB meeting when many folks are heading out of town for school vacation and then rush to "comply" with getting approval under the wire is "fear motivated" decision making. Frankly, it angers me and I consider the move a slap in the face to decent democracy.

I'll be at the meeting this afternoon but alas can't get there until about 3:45, after the time for public comments has elapsed.

Jim
