

Communication Tower Summary – 2-20-13

This document summarizes facts about the proposed Communication Tower on Norwich Department of Public Works property. Highlights:

- If Norwich builds the tower instead of contracting with VTel, the total added cost to taxpayers will be between \$328,000 and \$521,000 (the \$275,000 proposed by the bond vote will be insufficient).
- If Norwich builds the tower instead, the tower will not be completed for 12-18 months longer.

This is a summary of information presented in [Communications System Background Information 02-20-13](#) found in Town News.
