Hi John,

Attached is the Town Plan Draft with the 3 changes voted by Selectboard on 6-28-18. These three changes are noted below:

1. Add back in Action G.3.a "Proposed major changes in land use, either new development or changes in zoning districts, should be evaluated based on the available or planned capacity of transportation facilities serving the area."
2. Add back in Action H.8.h "Include bicycle paths as a component of the town's Capital Improvement Program and pursue federal and state funding for their construction."
3. Delete Action K.3.d "Allow for appropriate business/services needed in the community."

Speaking with Linda now. This is the final copy, and with your agreement, is ready to post.

Jaci
