

**Town of Norwich**  
**Invitation to Bid**  
**Norwich VT Route 132 Culvert Replacement**

The Town of Norwich Department of Public Works (“Town”) is seeking bids for the replacement of an existing concrete culvert on route 132 with a new precast concrete box culvert. The work consists of removal of the existing concrete box culvert and wingwalls, replacement with a precast concrete box culvert, and associated stream channel work, roadway and guardrail reconstruction. Sealed bids from prequalified contractors will be accepted until 3:00 pm, prevailing time on Friday February 4, 2022 at the Town of Norwich at Tracy Hall, 300 Main Street, Norwich. Bid opening will occur immediately after the bid submittal deadline. The time of receiving and opening bids may be postponed due to emergencies or unforeseen conditions.

This project is funded by the Vermont Agency of Transportation through the Structures Grant Program. Qualified disadvantaged (DBE) and women (WBE) owned businesses are encouraged to submit proposals. The Town of Norwich is an Equal Employment Opportunity employer.

Final plans may be obtained electronically from the Municipal Project Manager Israel Maynard, Stantec. Phone: 802-497-6415 Email: [Israel.maynard@stantec.com](mailto:Israel.maynard@stantec.com). The Municipal Project Manager and municipality shall track all plan holders for addendum distribution. During the advertisement phase of this project all questions shall be addressed solely to Israel Maynard, [Israel.maynard@stantec.com](mailto:Israel.maynard@stantec.com) and 802-497-6415. The Town of Norwich reserves the right to reject any or all bids.

Closing Deadline: **3:00PM on Friday February 4, 2022**
