

The Town of Norwich Solid Waste Committee has scheduled a special meeting on Thursday, July 14, 2022, at 7 p.m. to do hands-on work on drafts of informational and educational materials.

The in-person meeting will be held at the residence of Jack Cushman, committee chair, at 69 Meetinghouse Road in Norwich.

This will be an in-person meeting, without Zoom or telephone access. Activities may include drawing, marking up copy, laying out and printing dummies and markups, scanning and resizing photos and other documents, using specialized, licensed computer layout equipment and software, and the like.

No votes will occur and no policy issues are under review. Draft materials that we prepare for publication will be available for public inspection and comment before final production, which will not be completed at this meeting.

As discussed at previous public meetings, we are planning a brochure, instructional stickers for home use, more helpful signage for the transfer station, and other such products.

Members of the public seeking directions, further information, accessibility accommodations, or other assistance in attending this meeting are asked to contact Jack Cushman at jack.cushman@mac.com or by cell phone at 603-306-7017.

The well ventilated meeting space is under cover, screened on three sides, with ceiling fan ventilation and ample spacing and work surfaces for social distancing and other Covid-safe precautions.
