Appellant Evidence Packet

Contents:

- 1. Appeal Letter
- 2. Grievance email from 7/14/2025
- 3. Property record card, 597 Sugartop Rd.
- 4. Property record card, 592 Sugartop Rd.
- 5. UVLT easement monitoring inspection report

Katharine & Davis Kitchel 597 Sugartop Rd White River Junction, VT 05001

29 August 2025

Dear Board of Civil Authority of Norwich, VT,

We are submitting this appeal in regards to the following property:

Parcel ID: 14-026.00

SPAN: 450-142-12811

Property Description: 14-026.000

109.2 Acres & DWL 597 Sugartop Rd

(located in Norwich, VT)

After further discussion with the several of the listers on 8/28/25 during their office hours, and after a closer review of the property cards of both our property and the abutting property at 592 Sugartop Road, we believe the following errors have been made in regards to how the appraisals have been calculated on our property card:

Inconsistency with Adjustment Rate

- The adjustment rate for our 104.2 acres in 60 Current Use is significantly higher than the adjustment rate used for our neighbors.
 - The adjustment rate on our property is .69 RG
 - The adjustment rate on our neighbor's property is .26 RG.
- Note: Please see attached attachments Labeled Documents 2 & 3 where this information is highlighted in orange.

Inconsistency with Application of Conservation Easement

- The difference in adjustment rate highlighted above is due to a 70% deduction for a conservation easement to 83.6 acres of the Current Use land at 592 Sugartop Rd.
- 24.37 acres of our Current Use Land at 597 Sugartop Rd is also part of a conservation easement with the Upper Valley Land Trust. This has not been accounted for with a similar deduction on the calculations on our property card.
- O Note:

- Please see attachment (Labeled: Document 4) with details of the acreage we have enrolled with the Upper Valley Land Trust along our property line that borders with the US government.
- The conservation easement information is also highlighted in orange on Documents 2 & 3.

Error in the View Code

- Our property has been designated with a code for an unobstructed view (VW2) for the purposes of calculating the adjustment rate for « 11 RESD 2 Site Acre ».
 This code results in a 1.96 adjustment rate.
- However, we have an obstructed view (VW1). This code has a 1.68 adjustment rate.
- Thus, the correct adjustment rate for the « 11 RESD 2 Site Acre » should be calculated with the 1.68 adjustment rate.
- o Note: This information is highlighted in blue on Documents 2 & 3.

Based on this research and comparison between abutting properties, we would ask that the following adjustments be made to our final property appraisal:

- 1. Change the adjustment rate for the 104.2 acres from .69 to .26 for the acres included in the conservation easement.
- 2. Change the view code from VW2 to VW1 in the «11 RESD 2 Site Acre » line and alter the adjustment rate from 1.96 to 1.68 to reflect that change.

Sincerely,

Katharine and Davis Kitchel

597 Sugartop Rd

RECEIVED

Dear Cheryl, Ernie and Pamela,

We submit this email as part of the 2025 Grievance Process for the town reassessment. Per the letter sent by you, we understand that an email submitted by July 16th serves as a timely filing. Would you please confirm receipt of this email?

Thank you, Katie & Davis Kitchel

Parcel ID: 14-026-000

Property Owners: Davis & Katharine Kitchel

Physical Address: 597 Sugartop Rd, Norwich, VT 05055

Mailing Address: 597 Sugartop Rd, White River Junction, VT 05001 Daytime Telephone #: Davis 603-290-1685; Katie 802-291-2262

Email: Davis: dkitchel@mac.com; Katie: kkitchel@me.com

Appeal Basis:

We believe that the assessments of both the land that we have enrolled in current use (coded as 60) and the land that is listed as RESD 2 (coded as 11) are not assessed fairly in comparison to our abutting neighbors at 592 Sugartop Rd: 14-025-000; Wiggins.

We provide our reasoning below, with each section focusing one of the different coded assessments.

Current Use Portion of Assessment (code 60)

When looking at the change in assessment between the last assessment in 2023 and the current 2025 assessment, we draw your attention to the following data points:

Acres in		
Current Use	2025	2023

	(Code 60)	Assessment	Assessment
Kitchel	105.7	\$557,800	\$236,100
Wiggin	88.4	\$214,700	\$247,400

The 2025 assessment for the Wiggins land in current use actually decreased by 13%, on a per acre basis, whereas our assessment increased by over 136%.

RESD 2 Portion of the Assessment (Code 11)

	Acres in RESD 2 (Code 11)		2023 Assessment
Kitchel	2	\$284,900	\$132,500
Wiggin	2	\$245,700	\$132,500

In 2023, both properties were assessed at the same rate. However, in 2025 the assessment of the Wiggins RESD 2 rose by 85% per acre basis, whereas our land assessment rose by 115% despite the land remaining exactly the same.

Differences in assessment:

The table below summarizes the different percentages at which our abutting properties have been assessed.

	Difference Per Acre	
	60	11
Kitchel	136.26%	115 02%
Wiggins	-13.22%	85.43%

Subjective concerns:

When I came to the listers office in June to ask about these differences, the KRT representative asked me questions such as....

«What type of woods to you have? »

« Do you think you have a better view than your neighbors? »
I found these questions to be odd, since people from KRT visited our home, observed our view, and, I assume, walked around the land we have enrolled in current use. I would hope that they would be using more concrete evaluation points in their assessment rather than subjective points such as whether we think our view is better than someone else's.

However, in answer to those questions...

In regards to the current use land (Code 60), I would say that the woodlands and forest on both of our properties are very similar. Both are primarily forest with woods trails that have been maintained for current use logging and recreation.

In regards to the RESD 2 land, our property has an obstructed view towards Mt Ascutney. The Wiggins property has a large sweeping, unobstructed view of Mt Ascutney and the Jericho Valley.

Summary:

In summary, the primary basis for our appeal is what appears to be an inconsistency in the manner that the current use land as well as the RESD 2 land has been assessed on these two abutting properties.

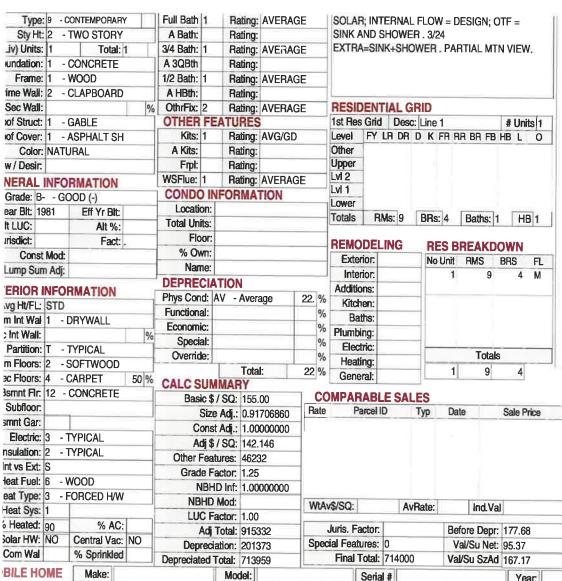

Thank you for your consideration.

Sincerely, Katie & Davis Kitchel
