Styrofoam (aka. expanded polystyrene, #6) is . . .

- bad for our bodies & the environment
- takes up lots of space in landfills
- is recyclable at a specialized facility

What CAN & CANNOT be recycled:

- Styrofoam (#6), do NOT break into little pieces
- Clean #6 food, drink, and egg containers
- NO packing peanuts
- NO foam insulation boards
- NO foam pipe insulation
- **TIP:** If you can bend it, it is NOT Styrofoam
